

CITY OF MILTON-FREEWATER

INTERNAL MEMORANDUM

To: All Employees
From: Leanne Steadman, City Recorder
Subject: Highlights from Council Meeting of April 11, 2011
Date: April 12, 2011

1. Councilor Orrin Lyon, on behalf of the entire City Council, presented Rick Rambo with the April 2011 employee of the month award. Rick has been with the city for 27 years next month. Manager Hall received an email from Cheryl and Skip York that said, "I just wanted to share with you how much we appreciate the quick response we received from the city this week when we had a wire on the outside of our home spray out a few very large electrical sparks. Rick Rambo was there in minutes and fixed the problem immediately. I had just happened to take something out to our garage at the right time to notice the dangerous problem. I cannot tell you how grateful Skip and I were to see Rick! Mike, your department deserves huge kudos for the work they do at any hour of the day or night. Linda, once again, I cannot express what a great staff you have. THANK YOU!" Rick expressed his gratitude and complimented his entire linecrew on the great job they do on a daily basis.
2. Council introduced and held the first reading of Ordinance No. 957, An Ordinance Amending Chapter 3 of Title 8 of the city code by the addition of Daytime Curfew Hours. The new chapter will read, "Every juvenile between the ages of seven (7) and eighteen (18) in this city will be required to either be in school or be at home during school hours during the traditional school year late August through early June. They will not be allowed in public except when a juvenile is emancipated; if a juvenile is in the company of his/her legal parent(s) or guardian; if they are home-schooled, attend an alternative school, if they are pursuing a GED through BMCC; or if they work part-time or full-time." The second reading and adoption will take place at the next council meeting on April 25, 2011.
3. Council unanimously adopted a resolution that declares water and electric meters surplus as they are removed from service. New automated meters are being installed due to the Smart Grid Project.
4. Council unanimously authorized the City Manager to proceed with signing the Residential Exchange Program Settlement Agreement.
5. Due to some changes in the construction drawings the recommendation of naming the new street that will connect South Main and Key Blvd. has been tabled until the road has been constructed to determine whether or not a new name is required.

All Council members were present.
